

The Story

Did You Know?

Original Cypress has been recognized as “The Eternal Wood” by many. Recovered sinker logs and sunken trees can go beyond two thousand years in age! While Cypress has always been popular, another Southern tree is now gaining in value and recognized for its unique beauty: Long Leaf (original) Southern Yellow Pine.

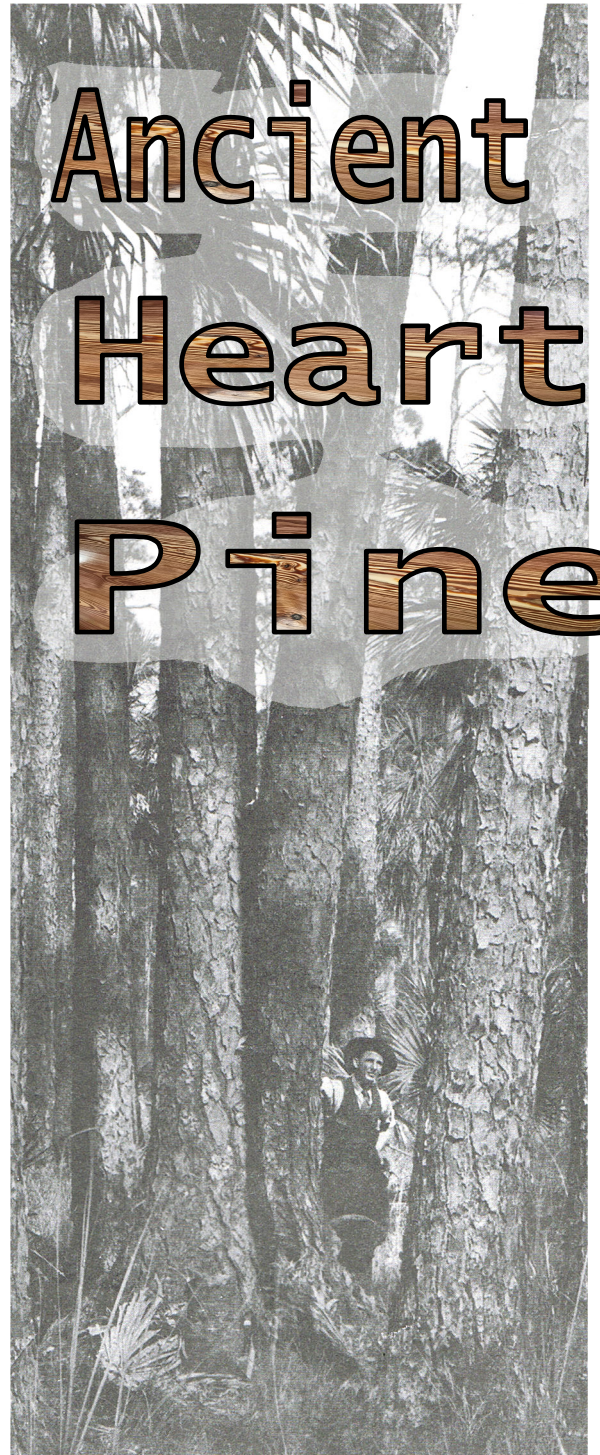

We have been very fortunate to acquire a limited supply of this All Heart content Long Leaf Pine...It came out of a 1919 home in our area. The pieces we’ve acquired are 2x8, 2x10 and 4x6. I’ve been told by an expert that these original trees (first cutting) were anywhere from four hundred to six hundred (plus) years old.

Due to their rich golden color, lack of sap wood, and hardness, I see them fitting a unique need, such as counter tops, bar tops, and unusual tables. Tell us what your needs are, and we will be most humbled to build you a top that will be a unique, “one-of-a-kind” statement, using a material that continues to live on after hundreds of years, in a new form...

Kimal Lumber Presents:

Ancient Heart Pine

Long Leaf Southern Yellow “old pine”
is really unique and rare .

The Samples

Raw Wood

Finished

We offer finished pieces custom made, including joinery, sanded, edge dressed, and finished to your specifications
