

Cabinet Fever? Kimal has the Cure.

When most people think of Kimal Lumber, they think of quality building materials, expert service, and decades of experience in Florida's construction industry. But we're more than just lumber. At our Sarasota location, we now offer full-service cabinetry solutions — from expert design to professional installation — making us your one-stop shop for cabinetry.

Our cabinetry team is led by Jeff Sund, an experienced and talented cabinet designer who works out of our showroom at 7010 Fruitville Road, Sarasota, FL 34240. With years of hands-on knowledge and an eye for both functionality and beauty, Jeff is here to assist homeowners and builders alike, whether you're replacing cabinets in your kitchen, updating a bathroom vanity, or designing the perfect layout for a new home.

Our Sarasota showroom features three top cabinetry brands:

- **Medallion Cabinetry** – A luxury brand offering fully customizable, high-end cabinetry. With extravagant design choices, unique finishes, and elegant details, Medallion is for those who want something truly special.
- **KraftMaid Cabinetry** – A semi-custom line that elevates the standard. KraftMaid features all-plywood construction, dovetail drawers, soft-close hardware, and color match capabilities for Sherwin-Williams and Benjamin Moore paints. It's the perfect balance between function, beauty, and value.
- **Merillat Cabinetry** – A budget-conscious option that doesn't sacrifice design. Merillat cabinets offer durable construction with attractive finishes — ideal for builders and homeowners who want impressive results on a tighter budget.

There's no better time than summer to start your kitchen renovation. Longer daylight hours allow your contractor or installer to work extended days while still finishing up before nightfall — especially important here in Florida. With more time and flexibility, projects can often be completed more efficiently.

Plus, summer gives you options: cook outside while your kitchen's being worked on, take advantage of the kids being out of school (they might even help with small tasks!), or free up space for the work to be done by sending them off to camp.

Whether you're a builder working on a custom home or a homeowner ready to refresh your space, our team is ready to help — starting with a personalized consultation and design session with Jeff Sund.

Stop by our Sarasota location and visit the showroom today or call to schedule a design appointment.

Let Kimal Cabinets bring your vision to life — with expert service from start to finish.
